

## **IMPORTANT AMENDMENT TO PARK RULES & REGULATIONS**

Due to the nighttime behavior of older teenagers gathering in groups over the past few years, as Operators of the Caravan Park, we feel it important to re-emphasize the importance of safety and quietness in the Park. In addition to the long-standing Park rules & regulations we have introduced the following amendments.

1. **All reserve areas, roadways, or any other part of the Park which is outside the boundary of a powered or unpowered site or cabin will be a DRY ZONE between the hours of 9pm and 9am. *That is, no alcohol must be consumed outside of your site or cabin during these hours.***
2. **All guests and visitors must co-operate and follow instructions from Park staff and security personnel.**

**Any persons disturbing the night time peace and quiet and failing to adhere to these and other Park Rules and Regulations or creating any other disturbances or problems whatsoever, particularly between 9pm and 9am, will be instantly evicted and the site or cabin in which they are staying will be automatically and immediately unavailable for any future bookings.**

Responsibility lies with the person whose name the site or cabin is booked under. If you have family, friends or visitors who are out in the Park at night and you do not know what they're doing, **and** you value your site, we strongly urge you to emphasize this to them. Unfortunately in this particular situation there is no room for warnings and second chances.

This action is the direct result of guest concerns and these amendments have been put in place at to ensure that all guests staying at the Caravan Park enjoy a safe, quiet family environment. Please help us to ensure we achieve this.
